But what if my points don't go up to 100?

Convert them to 100, here's how:

Divide your score by the maximum number of points possible

Example: Let's say the maximum points you can get is 20, but your score is 18.

Do this on a calculator:

$$18 \div 20 = 0.9$$

Then multiply 0.9×100 giving you 90

So your score = 90%, which you can see on the chart is an A-
